MEMORANDUM FOR: Director of Training

SUBJECT: Weekly Report #25: Defense Intelligence School (DIS)
30 August - 10 September 1965

- 25X1C 1. [REDACTED] spoke to the
Civilian Analyst class. I joined him for luncheon and he provided me
25X1C with an up-to-date chart of the reorganized [REDACTED] 25X1C
[REDACTED] gave the new set-up a tentative go back in May; after a few
subsequent shifts, the changes were officially adopted on 23 August. My
copy of the chart was made available to our Intelligence School faculty
for instructional use.
- 25X1A 2. Agency speakers did quite well in the opening week of fall
instruction at DIS. I was unable to catch [REDACTED] presentation, 25X1A
but all reports on his coverage of the National Security structure were
most favorable. As before, [REDACTED] 25X1A
25X1A [REDACTED] were well received. Several outside speakers had touched on the
matter of Congressional Committee overview of the Agency, so I alerted
Larry to cover our legislative liaison in a bit more depth so as to
overcome any student misconceptions. Larry does this well, and did so
25X1A while I was meeting with [REDACTED] about his two presentations at
the DIS.
- 25X1A 3. Charlie speaks to the Attaché class on Field Relationships this
coming Thursday; he will also give a three-hour seminar on 14 October to
the small Advanced Intelligence class on the general theme of DCI co-ordi-
nation. Because of greater emphasis on coordinating intelligence at
25X1A field establishments, [REDACTED] was a preferential choice over
25X1A [REDACTED] on the co-ordination topic.
- 25X1A 4. Coverage on some of the DIS guest speakers may be of infor-
mation and interest. The school authorities decided to invite Dr. Harry
Ransom, of Vanderbilt University, to give the opening address to a
joint meeting of the Attaché and Advanced Intelligence classes.
Dr. Ransom spoke on The Nature and Significance of Strategic Intelligence--
a topic given by Messrs. Dulles, Kent, Kirkpatrick, [REDACTED] or by non-CIA 25X1A
outsiders in the past. Dr. Ransom's presentation was organized a la 25X1A
25X1A [REDACTED] Dr. Ransom's examples were not as pertinent as [REDACTED] and
the stress on sub-topice was a bit uneven. Nonetheless, it was somewhat

revealing to appreciate the principal fact that Dr. Ransom's thorough treatment was produced by a non-Federal employee.

Former Congressman Brooks Hays was not particularly effective as he covered The Role of Congress in The Formulation of National Security Policy with the Advanced Intelligence class (whose 16 students were augmented by an equal number "drafted" from the faculty by Col. Wallace).

On the other hand, David Lawrence--at age 77 or 78--was first-rate when he spoke to a similar audience. Mr. Lawrence gave an outstanding treatment to his American Public and National Security Policy topic. The old gentleman won over his audience readily when he pronounced his commitment as a newspaperman to "my government first, my newspaper second."

5. The editor of the first National Register of Educational Researchers has informed me that my biography has been selected to appear in the Register, which is being published soon by Phi Delta Kappa. Employee Activity Branch approved the bio information when the request originated some months ago.
